Global CAD & Design Automation

Feb 11<sup>th</sup>, 2016

## Requirements:

- Determine Unbalance
- Compute the balancing masses and distance

## Technology To Be Used:

- Language                   :-- C++
- CAD Package               :-- NX9
- API                         :-- NXOPEN / UFUNC
- IDE                         :-- VS 2012

## Dynamic Balancing

```
