Homework #4, due Thursday, February 14, 2002

Please show all relevant work!
Please do the following problems from the book:

pp 237-43	3,7,19
pp 250-4	39,45,57

If you get stuck, it would be wise to try to work even-numbered problems similar to the ones assigned, since many of these have solutions in the back of the book.
