

CMU 48-105, S'15 STUDIO - PINTEREST BOARDS

Please be sure you document your work, all the decent and important models, drawings and sketches, individual work, and teamwork, and post it to the Studio A or Studio B Pinterest boards at: <https://www.pinterest.com/kaigutschow/>

The boards are a vehicle to share your work with classmates, the world, and instructors. In order for people to find your work, you must use proper "tags." For this studio, please tag every image with your firstlastname and the class and semester (e.g #kaigutschow #48105-S15). Please be sure to put a space between each tag or else it is hard to search for your work. Many students are NOT tagging their work properly, so I cannot find their work...

I will search for your work by putting your name and class in the search bar (see the three examples below). You can also begin the search by clicking on any tag on an existing post, and then adding 48105-S15 to the search terms. That should bring up all your images from the semester so far. If not, please fix your tags or add more images.
