Architecture, Design & Materials Studio

Spring 2006, CMU, Arch #48-205, M/W/F 1:30-4:20
Class Website: www.andrew.cmu.edu/course/48-205

Coordinator: Kai Gutschow
Email: gutschow@cmu.edu
Off. Hr: M/W 12:30-1:30pm & by appt. in MM307

(3/24/06)

Neighborhood Library "Design Summary"
+ Mobile Library "Final Documentation"

Please follow the instructions below to post your work within iWebfolio.
Due: Monday, March 27, 2006, 10:00pm

OUTPUT

### PROJECT 2 – NEIGHBORHOOD LIBRARY "DESIGN SUMMARY"

1. Create your "Design Summary" document using any graphics
   software you prefer. It should have the following characteristics:
   - ■ Landscape Format
   - ■ 2 pages (create more pages only if necessary)
   - ■ Your name should appear on each page
   - ■ Use "Framework" similar to the Proj.1 in 48-200
     (see *48205 Website > Resources, Links & Archives*)
   - ■ Consider how this summary works graphically with the other
     documents you have already submitted this year

2. Save your "Design Summary" with the following characteristics:
   - ■ **<48205_S06_andrewid_proj2mid.pdf>** **(File #1)**
   - ■ 300 dpi, single file, inclusive of all pages

3. Also save your design statement (which should appear on your
   summary document) as a text file. You will copy and paste this
   text into iWebfolio in a later step.

4. Also save EACH page of your PDF as a JPG image with the
   following characteristics:
   - ■ **<48205_S06_andrewid_proj2mid_page1.jpg>** **(File #2)**
   - ■ **<48205_S06_andrewid_proj2mid_page2.jpg>** **(File #3)**
   - ■ 525 pixels x 406 pixels
   - ■ 72 dpi, Color

Print out your PDF (High Resolution + Color) to hand into Kai.
Set the electronic files aside for uploading to iWebfolio in later step.

PROJECT 1 – MOBILE LIBRARY (if not already completed on 3/20)

1. Select one scan of a process sketch or a photo of a process model
   and save it as a JPG with the following characteristics:
   - ■ **<48205_S06_andrewid_proj1process1.jpg>** **(File #4)**
   - ■ 250 pixels x 193 pixels
   - ■ 72 dpi, color or b/w

2. Save your Mobile Library Final Documentation as follows:
   - ■ **<48205_S06_andrewid_proj1.pdf>** **(File #5)**
   - ■ 300 dpi, color, single file, inclusive of all pages

3. Save EACH page of your PDF as a JPG image as follows:
   - ■ **<48205_S06_andrewid_proj1_page1.jpg>** **(File #6)**
   - ■ **<48205_S06_andrewid_proj1_page2.jpg>** **(File #7)**
   - ■ 525 pixels x 406 pixels
   - ■ 72 dpi, Color

You are now ready to upload to iWebfolio (see next page).

UPLOAD, PLACE + LINK into iWEBFOLIO

Uploading, placing and linking files have been demonstrated in the iWebfolio workshop. Additional, step-by-step instructions are available on the 48205 website:

48205 Website > Resources > Documentation + Efolio > Support Documents

iWEBFOLIO

1. Upload all of your files to the iWebfolio "My Files" interface (see www.iwebfolio.com). There are a minimum of 7 files to upload (all are listed above).

PROJECT 2 – NEIGHBORHOOD LIBRARY DESIGN SUMMARY

2. Place your "Design Summary" JPGs in the "Neighborhood Library > Design Summary" section of your portfolio. The "Add Content" instruction sheet on the course website will explain this process step-by-step.
3. Link EACH JPG image to the PDF file of the "Design Summary" you have uploaded to the "My Files section."
4. Delete any extra "Image Placeholders" after you have placed your JPG images.
5. Copy and paste the 100-word Design Statement from your text file into your portfolio in the specified location.

PROJECT 1 – MOBILE LIBRARY

6. Place your Final Documentation JPGs in the "Mobile Library > Final Documentation" section of your portfolio. The "Add Content" instruction sheet on the course website will explain this process step-by-step.
7. Link EACH JPG image to the PDF file of the Documentation you have uploaded to the "My Files section."
8. Delete any extra "Image Placeholders" after you have placed your JPG images.
9. Place your Process JPG in the "Mobile Library > Process Work" section of your portfolio. The "Add Content" instruction sheet on the course website will explain this process step-by-step.

FEEDBACK: **Kai will give individual, written feedback and a grade to each student using the iWebfolio "feedback" page. Instructors will do so at their discretion!**

CARTOON OF PRESENTATION: **Remember that an accurate, miniaturized "cartoon" of your final presentation, submitted in a similar manner to iWebfolio, is due at the 2nd Mid-Review, Mon. 4/10.**

FINAL DOCUMENTATION: **When creating the final documentation for the "Neighborhood Library" at the end of the semester, you will be required to use a pre-designed "20-Square Grid Framework," where the location of the title & name, the font, and several other features will be pre-determined to provide an overall studio identity.**
