

Lubetz Studio

Library/ Research Center

This building is to be a library and laboratory in analysis and research of theories on how engaging the body through all the senses can elicit emotional responses through architecture.

1.) Program: space for information concerning

- Spinoza
- Antonio Damasio
- neuro science
- emotions/ feelings

2.) Space for a collection of elements that elicit emotional responses.
(see Material Connexion)

- colors
- lighting levels
- spatial conditions
- involvement of the body
