

67-307 - A Survey of Software Architectures

Homework 2 – due 6:45 pm, Wednesday, November 8, 2006

Late homework will not be accepted.

Reading Assignment

Hint: If you don't see a question covering a particular paper, you might see a question about that paper in the short writing assignment at the beginning of class. Read all of the papers, even if you do not see a homework question covering that paper.

- Program and Line-of-Business (Product Family) Architecture
 - <http://publications.jillesvangurp.com/sybrenmarcoMDASPF.pdf>

Short Answer Questions

Each of these questions should be answered in 1 or 2 sentences. Typed sheets are preferred – if you write by hand, make sure your handwriting is legible! Submit a printed copy to me by the time the homework is due. Late homework will not be accepted.

1. Define domain engineering as discussed in the paper.
2. Define application engineering as discussed in the paper.
3. List the four product family classifications discussed in the paper.
