

NAME

iptables-restore – Restore IP Tables

SYNOPSIS

iptables-restore [-c] [-n]

DESCRIPTION

iptables-restore is used to restore IP Tables from data specified on STDIN. Use I/O redirection provided by your shell to read from a file

-c, --counters

restore the values of all packet and byte counters

-n, --noflush

don't flush the previous contents of the table. If not specified,

iptables-restore flushes (deletes) all previous contents of the respective IP Table.

BUGS

None known as of iptables-1.2.1 release

AUTHOR

Harald Welte <laforge@gnumonks.org>
