

**NAME**

iptables-save – Save IP Tables

**SYNOPSIS**

**iptables-save** [-c] [-t table]

**DESCRIPTION**

**iptables-save** is used to dump the contents of an IP Table in easily parseable format to STDOUT. Use I/O-redirection provided by your shell to write to a file.

**-c, --counters**

include the current values of all packet and byte counters in the output

**-t, --table tablename**

restrict output to only one table. If not specified, output includes all available tables.

**BUGS**

None known as of iptables-1.2.1 release

**AUTHOR**

Harald Welte <laforge@gnumonks.org>
