

Dr. Sung-Gyu Park
Korea Institute of Materials Science (KIMS)

Sung-Gyu Park is a senior researcher of Korea Institute of Materials Science (KIMS, <http://www.kims.re.kr>). Prior to joining KIMS, he was research scholar at Univ. of Minnesota for 2 years. Dr. Park is contributed over thirty articles on three-dimensional nanostructures, surface-enhanced Raman spectroscopy, microfluidics, and interface engineering. He was awarded the National Graduate Science and Technology Scholarship from Korea Science and Engineering Foundation in 2008 and 2009, and Presidential Award for Honor Students from Ministry of Education in 2003.
