Course Description & Objectives
Political philosophers are interested in whether, and to what extent, government use of coercion can be justified. This question involves many facets, including what gives the government the legitimate authority (if any) to coercively enforce the rules, what limits there are (if any) to the legitimate kinds of rules the government can enforce (and why), what obligations (if any) the government has to the citizens that are governed by its rules, and what claims (if any) citizens of a state can make upon one another. This course provides a systematic investigation of such questions as well as the concepts that are often appealed to in political theory, such as “justice”, “equality”, and “fairness”. Readings will be comprised of classic and contemporary theorists from within the liberal political tradition as well as theorists critical of this tradition and its ability to live up to the lofty ideals it espouses.

This course aims to familiarize students with classic and contemporary questions in political philosophy. Students are expected to come away from the course with a broad understanding of some of the major debates in political theory as well as the tools to analyze ongoing debates within contemporary US politics regarding the appropriate way to organize our social and political reality. This course will be primarily conducted as a seminar (more below) and is intended to be discussion- rather than lecture-based.

Required Texts
All readings will be made available via Canvas.

Important Dates
Sept. 12: Drop deadline for tuition adjustment
Sept. 29: First exam
Oct. 20: Second exam
Oct. 24: Mid-semester grades turned in
Nov. 7: Final drop deadline
Nov. 24: No classes; Thanksgiving Break
Dec. 15: Final exam due
Course Requirements
The learning curve for reading and writing philosophical materials is steep, and early feedback will be important to you in improving your work. Homework assignments are structured to improve students’ reading habits, analytical skills, and writing.

Short Writing Assignments – 40%
Students will be given 8 short writing assignments (6 substantive; 2 goals related) over the course of the semester. Writing assignments are exercises in both exposition and analysis. They will be graded based on students’ ability to present (in their own words) the arguments from the readings and to construct arguments of their own defending one or another of conflicting positions.

Exams – 50%
There will be two in-class exams and a take-home final. Students will be provided with all exam questions in advance. All exams will be closed-book. The first exam will be in class on September 29 and will be worth 15% of your final grade. The second exam will be in class on October 20 and will be worth 15% of your final grade. Final exams will be take-home and will be due no later than 11:59pm on Thursday, December 15. Final exams will be worth 20% of your final grade.

Attendance & Class Participation – 10%
10% of your grade consists of participation in in-class discussions of the readings and regular class attendance. You should attend each class ready to engage in discussion and critical assessment of the readings. See below for more details. 10% of this portion of your grade will come from your syllabus quiz on the second day of class.

Class Policies
Late Assignments
It is the responsibility of the student to have all assignments submitted no later than the assigned deadline, and all readings completed before the beginning of each class meeting. All late assignments will be penalized half a letter grade (5 points) for every day or portion of a day that they are late. Writing assignments submitted more than 3 calendar days late will receive a 0. Final exams submitted more than 7 calendar days late will receive a 0. Requests for reasonable accommodation due to legitimate conflicts must be made in advance.

Attendance
Attendance is not taken, but a pattern of missed classes will be noticed and will impact your attendance and class participation grade. Missing a significant number of class meetings is also likely to impact your grade through your performance on class assignments. Students who miss class are responsible for discovering on their own or from classmates any material missed or changes to class assignments. Emails requests from students asking what they missed during unexcused absences will be ignored.
Participation
Philosophical inquiry is a joint endeavor, and the quality of the course will depend crucially on your thoughtful, considerate engagement with the readings and with each other. We will be discussing controversial topics about which many of you will have strong feelings. However our purpose in this class is to move past feelings and opinions, and to evaluate and provide reasoned arguments for and against various positions on these issues. Disrespectful comments towards other students will not be tolerated. Students should come to class having closely read and thought about all assigned materials. This requires, at a minimum:

- Determining the key point the author is trying to establish or criticize;
- Understanding why the author considers it to be important;
- Identifying the reasons the author gives in support of the conclusion; and
- Considering whether those reasons both (a) are true or correct, and (b) actually support the author’s conclusion.

Students are encouraged to take notes while reading, and to come to class with questions about and criticisms of the readings.

Communication
Students are not always familiar with the norms governing professional correspondence. Please use the following resource to inform your understanding of what is expected from communications in a professional environment: https://medium.com/@lportwoodstacer/how-to-email-your-professor-without-being-annoying-af-cf64ae0e4087#.gyje2zezg. Please note that I do not read or respond to student emails outside of normal business hours (i.e. if you email me on a Friday evening, you will not receive a response until Monday morning).

Grading
Grades are assigned on the following scale:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>90-100</td>
</tr>
<tr>
<td>B</td>
<td>80-89.9</td>
</tr>
<tr>
<td>C</td>
<td>70-79.9</td>
</tr>
<tr>
<td>D</td>
<td>60-69.9</td>
</tr>
<tr>
<td>R/F</td>
<td>0-59.9</td>
</tr>
</tbody>
</table>

While I recognize that grade inflation has generated the expectation that a “B” should be fairly easy to achieve, and an “A” not too hard, it is not the case that instructors are obligated to inflate grades. I also recognize that receiving a lower grade than one has come to expect can be traumatic. However, in this class grades mean what they are intended to mean. A “C” represents a satisfactory or average performance, and is nothing to be ashamed of. A “B” is a good performance, and something to be proud of. An “A” indicates outstanding or truly exemplary work. There is a steep learning curve to reading and writing philosophy effectively, which should provide you with strong incentives to work hard at the beginning of the semester and receive the kind of feedback you will need to excel in your paper assignments.
Academic Integrity & Plagiarism
Plagiarism refers to the use of any ideas or words from another person or source without appropriate citation. All sources used for course assignments should be appropriately cited, including information found on the internet, in course readings, or from class discussions. If you are unsure about whether or not to cite something, err on the side of caution. I have a zero-tolerance policy for cheating: Any student found to have plagiarized on any assignment will receive a failing grade for the assignment, and at my discretion, for the entire course. Additionally, all available institutional penalties will be sought.

Technology in the Classroom
I and your classmates put a great deal of time and effort into preparing for an interesting class discussion, and you are expected to do the same. When entering the classroom, please place your phone on “silent” and put it away for the duration of our meeting. If there is an urgent need to keep your phone on during a particular class period, please inform me at the beginning of class, sit where you can leave the room without distracting others, and keep your phone on vibrate. Students are permitted but strongly discouraged from using laptops during class. While typing is faster than writing for many of us, using a computer during discussion significantly distracts from what is going on and leads to disengagement from those around you. While some users can successfully use a computer without multitasking, most cannot – it is hard not to take a down moment to check your email or look at your calendar. But studies have shown that this kind of multitasking during class not only causes the computer user’s learning to suffer, but also that of the students sitting nearby who can see the screen.1 Moreover, recent research has shown that students take better notes, and learn more, when they take notes via longhand instead of on a computer.2

Videotaping and Audio Recording
Videotaping and audio recording are prohibited without the express written permission of the instructor.
