my domain:
==>{ } **tor.place** { }<==

We're under construction
[updated 2016-1-16 ---- should be launching 2016-2-16]

I'm going to be offering some products & services related to my
research hobby/area in applied cryptography.

And some products Tor users should enjoy.
(products & services that aim at using cryptography to decentralize
Tor, and using cryptography + Tor to decentralize government &
banking)

If interested in a 2-page summary, read [my pdf](#).
