recent studio work: University of California, Berkeley was produced by Architecture 109x during Spring Semester 1992. Projects considered for the journal were recommended by class instructors and are organized by curriculum sequence. Representing Spring and Fall studios, 1991. Design and budget constraints prevented the inclusion of all recommended work, the class itself undertook the final editing process. The funding of this book was made possible by support from the Offices of Dean Roger Montgomery, and Chair Gary Brown.

Acknowledgements for support and assistance go to Marly Snow of the Slide Library, Ina Evans and Alice Gates of the Business Office, Susan Lary of the Dean's office, and Guy Vincent and Lanco Lee of the Photography Laboratory.
