ZDNet Computershopper.com

Connecting Savvy Shoppers to the Best Deals on the Web

The functionality of the Internet makes it the ideal medium to research computer products without taking a leap of faith based solely on brand name or word of mouth. ZDNet Computershopper.com is the conduit that connects people to the most insightful, up-to-date information about computers and related products on the Web. Computershopper.com’s tech-savvy audience comes to search, compare, and buy from the widest selection of vendors and brands. Showcased in more than 100 product categories, visitors can examine more than 190,000 products from over 2,500 manufacturers and system vendors.
