

The Contexts of Early Childhood Development

Contexts

- Family
- Media
- Community
 - Daycare/Preschool

The Family as a Context for Development

- **Family Configurations and Socialization Practices in North America**
 - **Parenting styles in the middle-class North American nuclear family**
 - **Patterns of socialization in single-parent families**
 - **The impact of poverty on child rearing**
 - **The extended family and social networks**

Media: Linking Community & Home

- **The Lessons of History**
- **Books**
- **Television**
- **Interactive Media**

Books

- **The form of early literacy experiences**
 - **Zone of Proximal Development**
 - **Dialogic Reading**
 - **Whitehurst - grammar, idea expression, word sounds**
- **Appropriate content for young children**
 - **Fairy tales: Do they have a role?**
 - **Stereotypes**

Television

- **Viewing Factors**
 - **Interests Change over time**
 - Preschoolers - educational shows
 - Kindergarten (5) - cartoons
 - Middle childhood - general audience
 - **Individual Differences**
 - Males more than females
 - African Americans more than Caucasians
 - Lower SES more than Higher SES
 - **How Much?**
 - 1 hour at 6 mo. - - 4 hours at 10 years (per day)

Television: Neutral, Helpful or Harmful?

- **Appearance -Reality Distinction**
- **The problem of television form**
 - Scene-changes, flashbacks, face-paced
 - Induces Mental Laziness?
- **The problem of television content**
 - **Media Stereotypes**
 - Men vs women, Ethnic minorities & Foreigners
 - Dangers: Identification with own group
 - **Violence: Problems with evaluating its effect.**
 - Observational, experimental
 - Natural Experimental: Introduction of TV to community

Television: Helpful?

- **Cognitive Development**
 - **Sesame Street (school readiness skills)**
 - Greatest gains for disadvantaged children
 - Increase in vocabulary, letters, name writing, numbers & forms
 - Better adapted to schools, more positive attitudes to school & other ethnic groups
 - **Barney & Friends**
 - Social-emotional benefits
- **TV: Good or Bad: Depends on Quantity**

Television

- **Family Influences**
 - **Joint Television watching: Helpful?**
 - Depends on what is watched
 - How parents interact with show and child

Paper #3

- **Evaluation of the positive & negative influences on development of children's television.**
 - Synopsis of the show
 - Analysis of the developmental goals
 - Evaluation of the goals
 - Background research, theory
 - Recommendations

Blues Clues

Media Paper

- Writing a synopsis
 - Describe the general format of the show
 - Animation, real-life, mixed media
 - Setting & characters (where, who)
 - Plot line (goal, focus - what is it about)
 - Audience (who is the show designed for)
 - Describe the specific features of the episode
 - Topic
 - Activities/ concepts

Media Paper

- **Analysis of the developmental goals**
 - What are they trying to teach
 - In general - specific examples
 - What strategies do they use to teach
 - In general - specific examples
- **Evaluation of the goals (Theory & Research)**
 - Are the goals appropriate for the audience
 - Content & Strategy
 - Success in attaining their goals
 - How well did they implement the goal
 - Recommendations (Theory & Research)
 - How would you make the show better?

Interactive Media

- Modeled on Cartoons & Books but interactive
 - Graphics, Music, Game-like
 - Teach basic skills
 - Literacy skills (letter recognition, sounds - letters, spelling, etc)
 - Mathematical skills (numbers, quantity, classification, addition & subtraction)
 - Reasoning skills (problem solving, sequencing, etc)
 - Computer skills
 - Controlling mouse, click & drag, activating, opening & closing files, programs, etc

The Young Child in the Community

- **Varieties of Day Care**
 - Home care
 - Family day care
 - Day-care centers
- **Developmental Effects of Day Care**
 - Intellectual effects
 - Impact on social development
- **Preschool**
 - Preschools and “The war on poverty”
 - What difference does Head Start make?
 - The future of compensatory preschool programs
