

Joseph Wang is Distinguished Professor, SAIC Endowed Chair and Chair in Department of Nanoengineering at University of California, San Diego (UCSD). He is also the Director of the UCSD Center of Wearable Sensors. He served as the director of Center for Bioelectronics and Biosensors of Arizona State University (ASU) before joining UCSD. His research interests are nanomachines, wearable sensors and bioelectronics. Prof. Wang has published more than 1000 papers, 11 books and he holds 25 patents (H Index=149, >90,000 citations). He received 2 American Chemical Society National Awards in 1999 (Instrumentation) and 2006 (Electrochemistry) and 8 Honorary Professors from Spain, Argentina, China, Czech Republic and Slovenia.
