

**Computer Applications-Grade Sheet
Fall 2005**

Student _____

Website

Grading Methodology

Each category will be assigned a number. In order to weight ideas differently, that number will shown as a fraction, for example: 9/10 would be nine points earned out of a total of ten possible.

Assignment Parameters

- Create a rendering based on a pencil sketch.
- The sketch may be one that you have created or one that you get from a book
- Create a storyboard of three different lighting looks for the storyboard

Grade	Category	Note
/25	Fulfilled assignment parameters	
/10	Do all of the links work?	
/15	Aesthetics: How much effort did the student put into the finish of site	
/10	Sophistication of Use of Dreamweaver	
/10	Homepage	
/10	Photo Album	
/10	Resume Page	
/10	Contact Page	
/100	Final Grade
