

Computer Applications-Grade Sheet
Fall 2006

Student _____

Website Image

Grading Methodology

Each category will be assigned a number. In order to weight ideas differently, that number will shown as a fraction, for example: 9/10 would be nine points earned out of a total of ten possible.

Assignment Parameters

Create an image for your website
 Use what you have learned about Photoshop to create images that are as sophisticated as possible.

Grade	Category	Note
<i>/2</i>	Fulfilled assignment parameters	
<i>/1</i>	Success of color	
<i>/2</i>	Sophistication of merging disparate elements	
<i>/2</i>	Sophistication of Final image	
<i>/1</i>	Use of Layers	
<i>/1</i>	Use of filters	
<i>/1</i>	Use of text	
	Other	
<i>/10</i>	Final Grade
