

**Photoshop for the Theatrical Designer-Grade Sheet
Spring 2012**

Student _____

Storyboard

Grading Methodology

Each category will be assigned a number. In order to weight ideas differently, that number will shown as a fraction, for example: 46/50 would be 46 points earned out of a total of 50 possible. This project will be worth a 50% of your grade, thus a total of 50 points.

Assignment Parameters

- Create a rendering based on a Sketch-up model, a real model, or a sketch.
 - Ideally you are working from your own design work.
- Create a storyboard of three different lighting looks for the storyboard
 - You may also create 7 costume sketches based on pencil sketches

Grade	Category	Note
/8	Fulfilled assignment parameters	
/8	Success of “story” or “character” in each sketch	
/8	Sophistication of merging disparate elements	
/8	Sophistication of lighting	
/8	Variety of looks	
/5	Storyboard aesthetics	
/5	Color	
	Other	
/50	Final Grade
