Library Homepage: **http://search.library.cmu.edu**
CAMEO: Library Catalog

Research Guides: **http://guides.library.cmu.edu/engineeringbeck**

At the *Engineering & Science Library* (4400 Wean Hall) you will find materials in the engineering fields of Biomedical, Chemical, Civil and Environmental, Electrical and Mechanical. In the sciences: Computer Science, Materials Science, Mathematical Sciences, Physics, and Robotics, as well as general science and engineering.
Biology and Chemistry materials are held: *Mellon Institute Library* (4400 Fifth Ave., 4th fl).

→ **Book Loan Period**
Graduate: 90 days – 100 books - 1 renewal per book.
(a book may be recalled after 1 week)
→ **Journals** – print issues can be checked out for 24 hours.
→ **Photocopiers and Scanners** – Available at all libraries.
→ **Printing**
Swipe your Carnegie Mellon ID card at the library printer release station
to send your job to the printer.
→ **Renew your materials online**
Use "My Account" link to renew items.

Need materials that Carnegie Mellon does not own?
→ **Interlibrary Loan** (ILL) see tab on Library's home page
▪**ILLiad**: Request articles, books, and other items.
▪**EZ-Borrow/PALCI**: Request *books* only – quick delivery.
Questions about ILL: 412-268-7215
es82@andrew.cmu.edu

→ **Local libraries you can borrow from (in person)**
The Carnegie Library of Pittsburgh
- With your Carnegie Mellon ID card and proof of local residence,
go to the Main (Oakland) Library desk for a library card.
The University of Pittsburgh Library System
- With your Carnegie Mellon ID and proof of current registration, go to
the Hillman Library lending desk, lower level for a borrowing card.

At Hillman Library, you can also use the University of Pittsburgh's electronic databases and journals ONLY when you ask for a guest account at their reference desk. This allows in person access to their public computers.

"Articles & Databases" on Library's home page: http://search.library.cmu.edu
→ **Select Databases**

- **Academic OneFile** – 43 million full-text articles (1980-2011) —
  with listening capability—have text read to you.
    Try the "Subject Guide Search" for Biomedical Engineering.

- **Compendex** (Engineering Index) – can also search with **Inspec** + **NTIS**
  The most comprehensive interdisciplinary bibliographic engineering
  database in the world – goes back to 1884.

- **IEEE Xplore** – technical literature: articles & conference proceedings in
  engineering and technology.

- **Knovel** – includes nearly 3,000 full-text manuals, handbooks, and
  encyclopedias, plus interactive tools for data analysis.

- **PubMed** – free search engine to biomedical literature/MEDLINE
    U.S. National Library of Medicine/National Institutes of Health.

- **SciFinder Scholar** – access to Chemical Abstracts, worldwide literature
  & patents, in chemistry, biochemistry, chemical engineering.

- **Scopus** – abstract & citation database with 45.5 million records.

- **USPTO** – search U.S. patent databases.
    With the Patent Number, use http://www.pat2pdf.org/ to get the pdf.

- **Web of Science** – includes *Science Citation Index*,
    literature of the sciences back to 1900, CITATION searching.
  Under ISI Web of Knowledge, you can also access *Journal Citation Reports*.

→ **Search multiple databases at the same time: MetaLib**
    Try the Basic Search, choosing "Engineering/Tech" category.

→ **Search for relevant lectures in the Synthesis database:**
    Synthesis Lectures on Biomedical Engineering

→ **Off Campus/Wireless Access:** see link on Library's home page

HINT: Zotero free of charge Citation Manager, FireFox extension
