Recommended Databases

- **Environment & Energy Publishing (E&E)**
E&E is the leading source for comprehensive, daily coverage of environmental and energy policy and markets with five daily online publications are considered “must-reads” by people who track and influence energy, environmental and climate policy.
- **Environmental Impact Statements: Digests**
Access to the hundreds of environmental impact statements issued each year by the federal government. Entries include a clear description of the project, sections on positive impact and negative consequences and legal mandates.
- **Environmental Science & Pollution Management**
This multidisciplinary database provides comprehensive coverage of the environmental sciences. Abstracts and citations are drawn from over 10,000 serials including scientific journals, conference proceedings, reports, monographs, books and government publications.
- **IEEE Xplore**
- **Knovel** - full-text manuals, handbooks, and encyclopedias, plus interactive tools for data analysis.
- **Scopus** and **Web of Science** (*WhoCitedWho* databases...)
