Forward Yahoo! Mail to Another Email Address

After you have signed up:

- Click the gear icon near your Yahoo! Mail top right corner or hover the mouse cursor over it.
- Select *Settings* from the menu that shows.
- Go to the *Accounts* category.
- Click *Edit* next to the [email address](#) you want to forward under *Yahoo account*.
- Make sure *Forward* is selected under [Access your Yahoo Mail elsewhere](#).
- Enter the email address where you want to receive all your [Yahoo! Mail messages](#) over [Forwarding Address](#).
- Select:
 - *Store and forward* to forward a copy of each message and receive it at the [original Yahoo! Mail address](#) as well.

- [Set Up Email Address](#)
- [Yahoo.com](#)
- [Setup Email Account](#)
- [Hotmail Live Email](#)
- [Outlook Web Access](#)

receive a copy forwarded to the email address you entered and have Yahoo! Mail retain a copy, but marking that copy read. (Note that forwarded messages may still appear unread in your Yahoo! Mail inbox in spite of this setting.)

- Click Save.
- If you have entered an email address not yet verified as accessible to you with Yahoo! Mail:
- Click OK.
- Check the email address to which you have Yahoo! Mail forward messages for a message from *Yahoo! Member Services* <yahoo-account-services-@cc.yahoo-

inc.com> with the subject *Verify This Email Address*.

- In that email, click *Verify "[email address]"*.
- Click Save.

Accessing Yahoo! Mail in Your Email Program

Marketing Automation

[directly using POP](#) (which will turn off forwarding) or employ a tool like [YPOPs!](#)

(Updated November 2013)

Ads

Maybe you want to go a more direct route and add Yahoo! Mail as a separate account to your [email program](#)? That's no problem either.

You can either [access a Yahoo! Mail account](#)

or employ a tool like [YPOPs!](#)
