

$$4(a) \quad \frac{\frac{[\perp]}{\neg \perp}}{\perp \vee \neg \perp} \vee I$$

4(b)

$$\text{Derivation in text} \quad \frac{\frac{\frac{[\neg \phi]_1 [\phi]_2 \neg E}{\perp} \frac{[\perp]_2 \perp}{\phi} 2 \longleftrightarrow I}{(\phi \longleftrightarrow \perp)} \vee I}{(\phi \longleftrightarrow \perp) \vee (\phi \longleftrightarrow \neg \perp)} \quad \frac{[\phi]_1 \frac{[\perp]_4 \neg I}{\neg \perp} 3 \longleftrightarrow I}{(\phi \longleftrightarrow \perp) \vee (\phi \longleftrightarrow \neg \perp)} \vee I$$

$$\frac{(\phi \longleftrightarrow \perp) \vee (\phi \longleftrightarrow \neg \perp)}{(\phi \longleftrightarrow \perp) \vee (\phi \longleftrightarrow \neg \perp)} \quad 1 \vee E$$

4(c)

$$\text{Derivation in text} \quad \frac{\frac{\frac{[-\perp]_2 \quad [-\phi]_1}{(\phi \longleftrightarrow \neg \perp)} \longleftrightarrow I 2}{\phi \vee (\phi \longleftrightarrow \neg \perp)} \vee I}{\phi \vee (\phi \longleftrightarrow \neg \perp)} \quad \frac{[\phi]_1}{\phi \vee (\phi \longleftrightarrow \neg \perp)} \vee I$$

$$\frac{\phi \vee (\phi \longleftrightarrow \neg \perp)}{\phi \vee (\phi \longleftrightarrow \neg \perp)} \quad vE 1$$

5

$$\frac{\frac{[\phi]5}{\phi \vee \psi} \quad \frac{[-(\phi \vee \psi)]4}{\perp}}{\frac{\perp}{\psi}} \frac{[(\phi \rightarrow \psi) \rightarrow \psi]1 \frac{\frac{\psi}{[-(\phi \vee \psi)]4}}{\frac{\phi \vee \psi}{\frac{\perp}{\phi \vee \psi}}}}{\frac{[(\phi \rightarrow \psi) \rightarrow \psi]5}{\frac{\psi}{\frac{[\phi \rightarrow \psi]2 \quad [\phi]3}{\frac{\psi}{\frac{[(\phi \rightarrow \psi) \rightarrow \psi]3}{\frac{[\psi]3}{\frac{[(\phi \rightarrow \psi) \rightarrow \psi]2}{\frac{\psi}{\frac{[(\phi \rightarrow \psi) \rightarrow \psi]1}{(\phi \vee \psi) \longleftrightarrow (\phi \rightarrow \psi) \rightarrow \psi}}}}}}}}}}$$

“natural” deduction indeed!
