

Maarten de Boer joined the Mechanical Engineering Department in August, 2007. After earning the Ph.D. degree (1996) from the University of Minnesota in Materials Science, he worked from 1996 to 2007 as a member of technical staff at Sandia National Laboratories in Albuquerque, New Mexico in the MEMS Core Technologies Department. Prior to the Ph.D., he was employed by Hewlett-Packard company in Fort Collins, Colorado from 1983 to 1991, working on integrated circuit processing. He has Master's and Bachelor's degrees in Electrical Engineering from the University of Colorado at Boulder (1982) and Cornell University (1981), respectively.
