

Rev 2 Testing Day

24-370 - Spring 2011

Professor Steve Collins

Reminders and Announcements

- Swinging gripper project
 - Gripper motion:
 - Motor driven closing, not triggered
 - But, not necessarily reverse drive-able
 - Spirit: approximate real gripper use without control
 - Group meetings:
 - Now is a good time...

Testing logistics

1. I call your name(s)
 - Come to front
2. Geometric check
 - Projected onto the overhead screen
3. Weigh in
 - Mass recorded
4. Load application
 - Loaded, result recorded
5. Mark your mass, held/broke on image sheet
