

Project 1 Testing Day

24-370 - Spring 2011
Professor Steve Collins

Reminders

- Project 1 reports due now, at front :D
- HW3 due Friday in folder in SH 423

Logistics

1. I call your name
 - Come to front
2. Geometric check
 - Projected onto the overhead screen
3. Weigh in
 - Mass recorded
4. Load application
 - Loaded, result recorded
 - Broken (where reasonable)

Announcements

- Big idea for the day: gather high-fidelity data
 - Learn new things about the mechanical system
 - Learn from other designs
 - Synthesize to improve intuition
 - Apply to next iteration...
- Big announcement: Project 1 v2
 - Rev 2 manufacturing documents due Wednesday
 - Short report addendum also due Wednesday
 - Second chance for a successful part
